| Corsica: Understanding France's complex relationship with its 'island of beauty' |

Brian Bouldrey traveled to the island of Corsica, with its wine-dark Mediterranean waters, powdered-sugar beach sand, sumptuous cuisine, and fine wine. And then he walked away from all of them. Bouldrey strapped on a backpack and walked across Napoleon's native land with the same spirit many choose to dance or drink: to celebrate, to mourn, to think, to avoid thinking, to recall, to ignore, to escape, and to arrive. This wonderfully textured account of a two-week ramble along a famous Corsican hiking trail with his German friend Petra (she was good at the downhill while he was better at the uphill) offers readers a journal that is a launching point for reflection: thoughts on cultural differences, friendship, physical challenge, personal challenge, and getting very, very lost. Part travelogue, part memoir, and part lampoon, this book offers readers an impressionistic view of a little talked about yet stunningly beautiful landscape. Best Books for General Audiences, selected by the American Association of School Librarians and the Public Library Association Runner-up, Best Travel Book, National Association of Travel Journalists

In Corsica, spelling contests, road signs, bilingual education bills and Corsican language newscasts leave language planners and ordinary speakers deeply divided over how to define what "counts" as Corsican and how it is connected with cultural identity. In Ideologies in Action Alexandra Jaffe explores the complex interrelationship between linguistic ideologies and practices on the French island of Corsica. This detailed exploration of the ideological and political underpinnings of three decades of language planning raises fundamental questions about what it means to "save" a minority language, and the way in which specific cultural, political and ideological contexts shape the "successes" and "failures" of linguistic engineering efforts. Jaffe's ethnography focuses both on the way dominant language ideologies are inscribed in the everyday experience of ordinary people, as well as how they shape the evolving strategies of language planners trying to revitalize the Corsican language. While Jaffe's analysis demonstrates the pervasive influence of dominant language ideologies on minority language speakers and language planners, she also draws on case studies from everyday discourse, educational practice and public and mediatized debates over language issues to develop an ethnographically-grounded perspective on levels of resistance. In the final part of the book she explores the emergence (and the limits) of "radical" genres of resistance found in forms of Corsican language activism and in examples of codeswitching and language mixing in bilingual radio practice. This book contributes to a growing literature on language ideology, and will be of interest to anthropologists, political scientists and linguists interested in the practical and theoretical dimensions of language contact, minority language literacy, bilingual education, and language shift.

A sumptuous book exploring the incredible food of France's sunny island of Corsica. This beautifully photographed book celebrates all that is Corsican—the people, the geography and, most importantly, the food. And with around eighty incredible Corsican recipes designed to be prepared in the home kitchen, you'll be transported to the island in no time. Relatively unexplored by visitors from outside Europe (although it attracts an estimated three million from France annually), Corsica is a Mediterranean island steeped in a rich food culture. With incredible geography—from the mountains to the plains and the stunning coastline—Corsica has long been a well-loved idyll for those in the know. It is also home to a unique cuisine—blending the best of French and Italian food—that respects its homegrown produce: citrus fruits, grapes, chestnuts, cheese, herbs, fish, seafood, and charcuterie. But Corsica is more than a collection of recipes, as the book also brings together portraits of those who live and work there, and those instrumental in maintaining Corsica's rich food culture.

This guidebook describes the classic GR20 trek, the north to south traverse of the rugged mountains of Corsica. Starting in Corscia's north-west, in picturesque Calenzana, the route winds south-east, through the heart of Corsica, finishing on the eastern side of the island, just north of Porto Vecchio in the township of Conca. Described in 16 stages with high level/low level alternatives for relevant stages, the route is roughly 200km in length and takes approximately two weeks to complete. The GR20 climbs high into the mountains. It is demanding trek and only suitable for experienced walkers. Step-by-step descriptions of each stage are accompanied by 1:50,000 mapping, together with information on ascent/descent, terrain, and food, water and shelter en route. Also included is invaluable information such as path conditions, what to take, and getting to/from and around Corsica. This comprehensive guide also includes information on the history and geology of Corsica, together with notes on the local plants and wildlife. An island of surreal beauty, Corsica showcases dramatic mountains, enchanting coastline and ethereal vistas. Bare rock and sheer cliff contrasts with black sand beaches, alpine pastures and pockets of forest. Mediterranean flair abounds, history lingers and culture is celebrated, making it the perfect destination for a trek bursting with adventure.
