teachers' behaviors that promote the creativity of students. It includes a rating scale for measuring a teacher's creativity fostering behavior — a scale known as the CFTIndex — and a series of conceptualization and research papers, including a lead article by Professor Authur Cropley, whose original

Bookmark File

PDF Soalan

ideas served as the basis of the CFTIndex. The other papers in this volume are by international authors who have used the scale in their research and who can now share their experiences using it in this volume. There is a dearth of measuring instruments that cover teacher behaviors where creativity is concerned,

Bookmark File

PDF Soalan

but the CFTIndex fills this vacuum, as evidenced by the many articles using this index in the international arena of creativity research.

In the present scenario, green technologies are playing significant role in changing the course of nation's economic growth towards

Bookmark File

PDF Soalan

sustainability and providing an alternative socio-economic model that will enable present and future generations to live in a clean and healthy environment, in harmony with nature.

Green technology, which is also known as clean technology, refers to the development and extension of processes, practices, and

Bookmark File

PDF Soalan

applications that improve or replace the existing technologies facilitating society to meet their own needs while substantially decreasing the impact of human on the planet, and reducing environmental risks and ecological scarcities. The concepts of Green Technologies, if endorsed and pervaded

Bookmark File

PDF Soalan

into the lives of all societies, will facilitate the aim of the

Millennium

Development Goals of keeping the environment intact and improve it for the civilization to survive.

Green Technologies and Environmental

Sustainability is focused on the goals of green technologies which are

Bookmark File

PDF Soalan

becoming increasingly important for ensuring sustainability. This book provides different perspectives of green technology in sectors like energy, agriculture, waste management and economics and contains recent advancements made towards sustainable development in the field of bioenergy, nanotechnology, green
