During the Second World War, a group of basement offices in Whitehall served as the centre of Britain's war effort. The complex, known as the Cabinet War Rooms, was occupied by leading government ministers, military strategists and Prime Minister Winston Churchill.

Surveys the war and its politics

The former British prime minister describes his first year in office in 1940 and the problems he faced with World War II

"I am perhaps the only man who has passed through the two supreme cataclysms of recorded history in high executive office... I was in this second struggle with Germany for more than five years the head of His Majesty's Government. I write therefore from a different standpoint and with more authority than was possible in my earlier books. I do not describe it as a history, for that belongs to another generation. But I claim with confidence that it is a contribution to history which will be of service to the future." Sir Winston Churchill From the origins of the conflict, the rise of Hitler and the futile attempts at appeasement, through the darkest days of Britain's lone stand against the Axis powers, the great alliances with the USA and Soviet Russia and the triumphs of D Day and the eventual liberation of Europe to the terrible birth of the Cold War under the shadow of nuclear weaponry, this is Winston Churchill's landmark history of World War II. At once a personal account and a majestic history, The Second World War remains Churchill's literary masterpiece.

Abridged by Denis Kelly.

Book I: From war to war : 1919-1939 Book II: The twilight war : Sept. 3, 1939- May 10, 1940.

The British prime minister recounts battles from Midway to Stalingrad, and how the Allies turned the tide of WWII: "Superlative." "The New York Times The Hinge of Fate is the dramatic account of the Allies' changing fortunes. In the first half of the book, Winston Churchill describes the fearful period in which the Germans threaten to overwhelm the Red Army, Rommel dominates the war in the desert, and Singapore falls to the Japanese. In the span of just a few months, the Allies begin to turn the tide, achieving decisive victories at Midway and Guadalcanal, and repulsing the Germans at Stalingrad. As confidence builds, the Allies begin to gain ground against the Axis powers. This is the fourth in the six-volume account of World War II told from the unique viewpoint of the man who led his nation in the fight against tyranny. The series is enriched with extensive primary sources, as we are presented with not only Churchill's retrospective analysis of the war, but also memos, letters, orders, speeches, and telegrams, day-by-day accounts of reactions as the drama intensifies. Throughout these volumes, we listen as strategies and counterstrategies unfold in response to Hitler's conquest of Europe, planned invasion of England, and assault on Russia, in a mesmerizing account of the crucial decisions made as the fate of the world hangs in the balance. "No memoirs by generals or politicians . . . are in the same class." "The New York Times

A masterful and comprehensive chronicle of World War II, by internationally bestselling historian Antony Beevor. Over the past two decades, Antony Beevor has established himself as one of the world's premier historians of WWII. His multi-award winning books have included Stalingrad and The Fall of Berlin 1945. Now, in his newest and most ambitious book, he turns his focus to one of the bloodiest and most tragic events of the twentieth century, the Second World War. In this searing narrative that takes us from Hitler's invasion of Poland on September 1st, 1939 to V-J day on August 14, 1945 and the war's aftermath, Beevor describes the conflict and its global reach -- one that included every major power. The result is a dramatic and breathtaking single-volume history that provides a remarkably intimate account of
